

Enhancing quality in Care HOMes: The ECHO study

Have you worked on enhancing quality in care homes?

Researchers are working on developing a resource which will describe the different ways care homes work on enhancing quality. The resource will be shared with the care home sector.

We would like to speak with staff who work on enhancing quality in care homes. Taking part will involve:

- . one-to-one conversation with a researcher (one telephone or video call)
- . online group discussions (3 group discussions)

You will receive a £20 gift voucher for taking part.

If you would like to know more, please contact Reena Devi at:
